DANISH KHAN

is a simple-natured and good-mannered artist from a backward area. I first met him during the art class at Jinnah Garden and I was very impressed by this young man, especially after seeing his work. I liked Danish Khan's work very much. The beauty of his work is he does Plein air painting and the style of his paintings in this way, reminds me of the style of Mr. Khalid Iqbal and Mr. Zulqarnain Haider and when an artist makes plein air paintings he is a real artist. In a short period of time, he did his work with such dedication and zeal that he won many awards at the regional and national level a true artist should work with such passion so that his work becomes his hallmark. Many qualities in a landscape painting. There are Soil, trees, and, flowers, which should be in a landscape painting and all these qualities are found in the painting of Danish Khan, the emotions and feelings of Danish Khan can be seen prominently in his painting. And in the future, he will carry out this responsibility well. Many congratulations to this HERO of today and to his teachers and parents. Long live Pakistan.

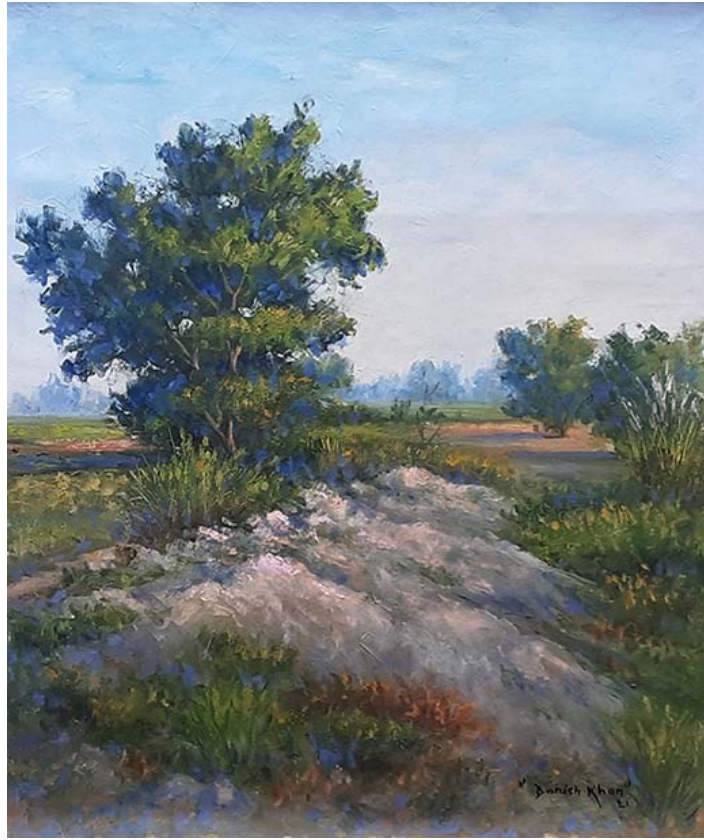

A "true" fine arts artist unconsciously takes such a responsibility upon himself and descends into the river of creativity and experimentation, and somewhere along the way he realizes that he has really lost his own culture, history along with the culture, has given such a color and harmony to its present era which is itself "an era". Undoubtedly, Danish Khan is counted among the lucky ones who are making their values shine. If Danish continues to landscape with hard work and love, surely, he will prove to be an excellent landscape painter.

Lots of prayers for Danish Khan's bright future.
