My childhood was spent in Bahawalnagar district of Punjab, and I Intermediate from Punjab, after coming to Karachi from Punjab in 2002, I joined the field of art and took admission in ACIAC in 2008 and also got useful tips from A. S. Rind Sahib. after pass out there in 2013, I started to make art as a profession during my career I joined Abbas Kamnagar, who further polished me and helped me for improving of drawing, oil painting and acrylic painting He taught me about different mediums of colour and techniques which led me to know about colour usages and techniques. These same techniques later became useful in my painting style. I used Acrylic as a medium and apply them with knife and brush in different ways Naturally I like some bright shades of colours and I also use these shades with combination of other shade in my paintings. Since living in Karachi, I has been associated only with art and paints female figure as a symbol of lights of love along with various elements are also featured in the paintings to make it beautiful, I participated in following group shows solo Exhibitions.
